However, far from it, the lamp actually has a spiritual meaning which is indicated as always getting closer to Allah, the owner. When we fall into the hole of darkness (problem) then we have to seek guidance from Him, which gives us a guide light like the saying "Golek Dalam Padhang" which means living in the world must find a bright path (light source). Lights can create the desired nuance, to make it more spacious in a narrow room or higher in a low room.</p> <p>Placement of light by type of lighting</p>
